Paper 2 Reading and Writing

**October/November 2021**

**MARK SCHEME**

Maximum Mark: 70

---

**Published**

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2021 series for most Cambridge IGCSE™, Cambridge International A and AS Level components and some Cambridge O Level components.

This document consists of **19** printed pages.

**PUBLISHED****Generic Marking Principles**

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

**GENERIC MARKING PRINCIPLE 1:**

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

**GENERIC MARKING PRINCIPLE 2:**

Marks awarded are always **whole marks** (not half marks, or other fractions).

**GENERIC MARKING PRINCIPLE 3:**

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

**GENERIC MARKING PRINCIPLE 4:**

Rules must be applied consistently, e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

**GENERIC MARKING PRINCIPLE 5:**

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

**GENERIC MARKING PRINCIPLE 6:**

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

<b>1 General Marking Notes</b>	
<b>1.1 Annotations in RM Assessor</b>	
<b>Question 1</b>	Enter a mark of 1, 0 or NR as appropriate for each item ((a), (b), (c) etc.) in the mark input box. Annotate the script where necessary.
<b>Question 2</b>	Enter a mark of 1, 0 or NR as appropriate for each item ((a), (b), (c) etc.) in the mark input box. Annotate the script where necessary.
<b>Questions 3 and 4</b>	<p><b><u>Content marks</u></b></p> <ul style="list-style-type: none"> <li>Annotate each correct point with a <b>tick</b>.</li> <li>Use the <b>LM</b> annotation to indicate any phrases which are copied directly from the passage.</li> </ul> <p><b><u>Quality of Language Mark</u></b></p> <ul style="list-style-type: none"> <li>If any items have scored zero or NR for content, insert an <b>on-page comment</b> on the script under the last item in the question. Type in the details of the Quality of Language mark.</li> </ul>
<b>Question 5</b>	<ul style="list-style-type: none"> <li>If the answer to <b>5a</b> exceeds 150 words, insert a slash <u>after</u> the 150<sup>th</sup> word to show the end of the response to be marked.</li> <li>If the answer to <b>5b</b> exceeds 50 words, insert a slash <u>after</u> the 50<sup>th</sup> word to show the end of the response to be marked.</li> </ul> <p><b><u>Summary</u></b></p> <ul style="list-style-type: none"> <li>Annotate each correct point with a <b>tick</b> up to a maximum of 10 ticks.</li> </ul>

**2 General Marking Principles**

**2.1** Please note that it is not possible to list all acceptable alternatives in the Detailed Mark Scheme provided on the following pages. You will need to consider all alternative answers and unexpected approaches in candidates' scripts, make a decision on whether they communicate the required elements, in consultation with the Principal Examiner if necessary, and award marks accordingly.

**2.2 Crossing out:**

- (a) If a candidate changes his/her mind over an answer and crosses out an attempt, award a mark if the final attempt is correct.  
(b) If a candidate crosses out an answer to a whole question but makes no second attempt at it, mark the crossed out work.

**2.3 More than one response offered by the candidate in Questions 1 and 2:**

If a candidate gives more than one response to any of the items in Question 1 or Question 2 and does not indicate which is their final response, mark as follows:

Both answers correct = 1 mark

One answer correct and one answer incorrect = 0 marks

**2.4 No response and '0' marks**

There is a NR (No Response) option in **RM Assessor**.

Award NR (No Response):

- If there is nothing written at all in the answer space or
- If there is only a comment which does not in any way relate to the question being asked (e.g. 'can't do' or 'don't know') or
- If there is only a mark which isn't an attempt at the question (e.g. a dash, a question mark).

Award 0:

- If there is any attempt that earns no credit. This could, for example, include the candidate copying all or some of the question, or any working that does not earn any marks, whether crossed out or not.

<b>Additional marking guidance for Quality of Language</b>															
The five marks available for Quality of Language are awarded <b>globally</b> for the whole performance on each set of answers.															
A concise answer, containing all mark-bearing components for Content is scored on the full range of marks for language, i.e. length does not determine the Quality of Language mark.															
<b>Answers scoring 0 for Content</b> cannot contribute to the overall Quality of Language mark.															
Identify the answer(s) scoring 0 for Content in the whole set of answers. Then add together the number of Content marks available for each of these questions and reduce the Quality of Language mark according to the following table:															
<table border="1"> <thead> <tr> <th data-bbox="495 619 1137 719">Total Content marks available on questions where a candidate scores 0</th> <th data-bbox="1137 619 1738 719">Reduce Quality of Language mark by:</th> </tr> </thead> <tbody> <tr> <td data-bbox="495 719 1137 786">2–3</td> <td data-bbox="1137 719 1738 786">1</td> </tr> <tr> <td data-bbox="495 786 1137 853">4–5</td> <td data-bbox="1137 786 1738 853">2</td> </tr> <tr> <td data-bbox="495 853 1137 920">6–7</td> <td data-bbox="1137 853 1738 920">3</td> </tr> <tr> <td data-bbox="495 920 1137 987">8–14</td> <td data-bbox="1137 920 1738 987">4</td> </tr> <tr> <td data-bbox="495 987 1137 1050">15</td> <td data-bbox="1137 987 1738 1050">5</td> </tr> </tbody> </table>				Total Content marks available on questions where a candidate scores 0	Reduce Quality of Language mark by:	2–3	1	4–5	2	6–7	3	8–14	4	15	5
